

Personal Site Plan

Between the Lines

WDD 130 — Personal Project

1. Purpose and Audience

The purpose of this site is to make American football accessible and enjoyable for everyone. Many people watch the game but feel lost when it comes to the rules, terminology, scoring, and history. This site breaks the sport down clearly — covering how scoring works, key football terms, legendary players, and the rivalries that define the game.

The intended audience is the general public — from complete newcomers who want to understand what is happening on the field, to casual fans who want to deepen their knowledge. The site is designed to be accessible and enjoyable for all ages and experience levels.

Elevator Pitch

"Ever watched a football game and had no idea what just happened? Most people have. As a former player and a fan since boyhood, I've spent countless hours studying the sport — and I've lived both sides of that confusion, on the field and in the stands. That's why I'm building a website that breaks down American football for everyone. From the scoring system and terminology to legendary players and iconic team rivalries, this site makes the game accessible, engaging, and fun for any fan, old or new. No jargon, no fluff — just the facts that bring football to life. Sound like something you'd want to check out?"

2. Site Map

The site consists of 3 pages plus an About Me page, all hosted on GitHub Pages.

Page	File Name	Description
Home Page	index.html	Introduction, site overview, navigation hub
Scoring & Rules	scoring.html	Scoring system, rules, football terminology glossary
Players & Rivalries	players.html	Legendary players, famous teams, historic rivalries

Page	File Name	Description
About Me	about.html	My football background, why I built this site

3. Content and Wireframes

All pages share these structural sections:

- Header — Logo + site name
- Nav — Menu: Home | Scoring & Rules | Players & Rivalries | About Me
- Main — Primary content unique to each page
- Footer — Copyright + nav links back to all pages

Required HTML elements used across the site:

- Heading (h1, h2, h3)
- Paragraph
- Link (anchor tags — nav, internal, external)
- Image (2+ per page, not counting logo)
- List (ordered or unordered)
- Table (at least one page)
- Form (at least one page — newsletter/contact form)

Home Page — index.html

Textual Content:

- Hero heading: 'The Real Story Behind American Football'
- Welcome intro paragraph: purpose of the site and what visitors will find
- Two section preview cards: Scoring & Rules, Players & Rivalries (each with image + short description + link)
- Fun Football Fact of the Week: a short highlighted fact block
- Newsletter signup form: Name field, Email field, Subscribe button

Images (2+ not including logo):

- Image 1: Football stadium aerial view — hero banner
- Image 2: Close-up of an American football on field grass

Child Page 1 — Scoring & Rules (scoring.html)

Textual Content:

- Page heading: 'Scoring & Rules'
- Intro paragraph explaining how football scoring works
- Scoring breakdown: how each score type is earned (touchdown, field goal, safety, extra point)
- Scoring table: score type, point value, description
- Football Terminology glossary list: down, snap, blitz, redzone, yard, punt, etc.

Images (2+ not including logo):

- Image 1: Labeled diagram of a football field showing scoring zones
- Image 2: Player scoring a touchdown

4. Logo

Site Name: Between the Lines

Tagline: "The Real Story Behind American Football"

Logo Description:

The logo features a stylized football icon alongside bold text reading 'Between the Lines.' The football uses the classic brown leather and white lace design. The font is bold and strong to reflect the power of the sport. The tagline appears beneath in the gold accent color. The logo will be created using an AI logo tool such as Canva or Adobe Express.

Logo Design Notes:

- Lessons from WWR & ICE: keep logo simple, scalable, and readable at small sizes
- Default styles: same font family as the site typography (Oswald)
- Grid preferences: logo aligns cleanly in the header grid, consistent spacing
- Note: The logo does NOT count as one of the 2+ required images per page

5. Colors and Fonts

Color Scheme — 4 Colors

Swatch / Hex	Color Name	Usage
#1A3A5C	Navy Blue	Primary — header, nav bar, footer, logo background, headings
#D4A017	Gold / Amber	Accent — taglines, section borders, buttons, logo text, highlights
#F5F5F5	Light Gray	Background — page body, card backgrounds, content sections
#222222	Charcoal Black	Body text — paragraphs, lists, table content, footer text

Fonts / Typography

Font	Type	Usage
Oswald	Google Font — Sans-serif	Headings, page titles, nav links — bold and impactful
Open Sans	Google Font — Sans-serif	Body text, paragraphs, tables — clean and readable
Arial (fallback)	System font	Fallback if Google Fonts do not load

Default Settings:

- Base font size: 16px
- Heading scale: h1 = 2.5rem | h2 = 2rem | h3 = 1.5rem
- Line height: 1.6 for comfortable reading
- Font weight: 700 for headings, 400 for body text

6. Submission Checklist

- File saved as: lastname-site-plan.docx
- Hosted on: GitHub Pages
- 3 pages minimum: Home, Scoring & Rules, Players & Rivalries
- About Me page included as bonus 4th page
- Each page has: textual content, 2+ images (not logo), working nav links, header/nav/main/footer structure
- Required elements included: heading, paragraph, link, image, list, table, form
- Plan is complete and detailed enough for anyone to build the site from this document
